NUTRI MIX...

Health Mix

Health mix powder is a nutritious and healthy nourishing blended mix made of natural multigrain like Millets, Cereals, Pulses, Whole grains, and Nuts, etc, all these ingredients have a very good nutrition balance. Which is good for building a healthy immune system and acts as body growth and development substance for all age groups.

Health mix powders are 100% natural and healthy food for babies above 6+ months you can give after the basic solids introduce.

Best and Good Nutritious foods for babies to adults and all age group to consume daily in the form of health drink or porridge, Which is daily given by many of the mothers for the toddlers to build good immunity with right growth both height and weight.

That's how Health mix drinking is still being significant in our Indian family without losing the traditional way of nourishing all members of the family.
